

Railroad Model Club of Atlanta

ESTABLISHED 1937

We are a 2 rail O Scale model railroading club in the Atlanta/Southeastern United States. Our primary purpose and goal are to promote O scale 2 rail model railroading and to enjoy our trains and fellowship.

Southern O Scalpers has merged with the *Railroad Model Club of Atlanta (RMCA)* and is now known as the *Railroad Model Club of Atlanta*. We temporarily operate our portable module layout and visit home layouts on the 2nd Saturday of each month at 10 am. We have business meetings on the 1st Tuesday at 7 pm each month.

Since we sold our downtown Atlanta building, we have relocated some of our permanent layout, large module layout, structures, motive power, and rolling stock to storage. We are in the process of purchasing another building in the Atlanta area and will soon construct a large permanent layout. Our club recently celebrated its 87th birthday and is Atlanta's oldest model railroad club.
